Never Been Funked

I ain't trying to make no political statement
I ain't trying to tell you the news of the world
I ain't one to give intellectual realness
I just want you to want me the way that I do

Don't it make you feel good, make you feel good?
Don't it make you feel good?

[Chorus]

You ain't never been funkyed like this before

Never been funkyed, never been funkyed
You ain't never been funkyed like this before

I don't keep in touch with economical worries
My interest don't lie in that same old story
Communicating was never my problem
I never have to talk to get through to you
Talk,talk

Do you really want to funk with me?
Do you really want to funk with me?
