## "When I'm President"

I remember it well  
I was just about three  
My dad said  
"Son what do you want to be?"  
It didn't ring no bells but I said  
"Daddy I'm a bit too young what do you want from me  
?"

I'm much older now  
I'm almost a man  
I can do anything, you bet I can  
Raise a family  
Now wouldn't that be grand  
So sorry but I got bigger plans, yeah

You can be anything in the world today  
Something like a preacher, a teacher  
A baseball player  
Those kind of things I just don't care  
I want to represent the USA

(The American Dream)  
Oh as far as the eye oh say can you see  
(I want to be)  
I want to be the leader of the country

(When I'm President)  
Things will be different  
We'll start a new government  
When I'm President  
(When I'm President)  
You can be in my cabinet  
(Well i'll be your heaven sent)  
A president

First things first we're gonna change the rules  
Better listen up, all you boys and girls  
Your prez says there'll be no after school  
So vote for me wouldn't that be cool

(Yeah!) Yeah! (Yeah!) Yeah!

Now I know there's trouble in the Middle East  
I'll spend all my money when I stop the Arms Race  
All my brothers in the desert  
Gonna have themselves a feast  
When that's done then we'll start on (world peace)

(So go ask Alice)  
Oh you know what he said  
(What did he say ?)  
Remember, "I wanna be elected"

(When I'm President)  
Things will be different  
We'll start a new government  
When I'm President  
(When I'm President)  
Say you can be in my cabinet  
(Well i'll be your heaven sent)  
A president

President, (coughing)  
President,  
(When I'm President)  
A things i'll be different  
We'll start a new government  
When I'm President  
(When I'm President)  
Say you can be in my cabinet  
(Well i'll be your heaven sent)  
When i'm president  
Things will be different  
I'll rise a new government  
Say when I'm President  
(When I'm President)  
Say you can be in my cabinet  
(Well i'll be your heaven sent)  
A president, president  
"Ya want me to go down there to the houses of harlem  
with a police man"  
"Not gonna do it "
