

## **Extreme Violence "Devourment Syndrome"**

Suffering insomnia, sleepless by nightmares  
Beaten by unknown disease, flesh departs the flesh  
Licking fresh wounds, feel the agony's bite  
In my devourment syndrome

Satisfaction in perversion, fed by rotten parts  
Prosthetic, slashing your guts, lungs on my hands  
Last heartbeat, no salvation or forgiveness  
All life ends

Poisonous knives dancing on your throat  
I will break your spine, cruelty above life  
Brutality above life, serenity's lost

Sacrificial horror, venomous infection, murder

Pathetic against pain, tortured by hooks  
Abuse this little core, bathe in maggots

Red clouds, blood clouds, red rain, blood rain

Move if you can, swim in this vault  
Feel the agony's bite, in my devourment syndrome.
