Part of the feast, exoselves  
Synthetics, plastic against blood

Part of the feast, enthrone you  
Bloodcrowned, fucking brutality

I'm drawing with chainsaws on you  
Memorable body, now a body bag  
Interesting bone selection  
I'm drawing with chainsaws on you

Razors of lobotomy, no pain  
Fucking brutality

Memorable body, now a body bag  
Part of the feast, maggots in carcass

Abstract phobic shrouds upon you

Draining you of your blood, memorable body  
Interesting bone selection, now a body bag  
No fucking messiahs now  
Left to rot, bloodcrowned  
Superior, priority of lust

Rot until divinity  
Rot until divinity

Abstract phobic shrouds  
Suffer phobic shrouds
