It's cold outside I know, but wait
I've been waiting so long to see the storm break
And you know what I think you'll do
I think that you'll run
Cause you don't mean a thing
Boy you don't mean a thing
Haha

Outside snow falling up to the hip
Put one shoe on
Then the button and zip your lips
Cause they saying things you don't wanna hear
And if you heard 'em well, you would be squirming
Landslide snow falling over the cliff
Put one shoe on
Then the button and zip your lips
In this American Landslide
In this landslide

Maybe you didn't hear me right
But how could you hear me wrong?
Baby I've been so clear, how could I steer you wrong?
They could steer you wrong
Snakes in a cage or snakes on a plane
I'll just stop
Maybe call in a quit
Tell the office to hold my calls
Baby I'll just quit
The American dream is falling out of it's seams
And I don't know what to do, all I know is it seems

Outside snow falling up to the hip
Put one shoe on
Then the button and zip your lips
Cause they saying things you don't wanna hear
And if you heard 'em well, you would be squirming
Landslide snow falling over the cliff
Put one shoe on
Then the button and zip your lips
In this American Landslide
In this landslide

We fell in love in the summertime, hanging around
But the winter came and cash came tumbling out of my
world
A crash and a bang
My wife and my name just got up and left
I blame the government for our love locking up
Like the brakes of my car, cause I can't get enough I
swerve
A crash and a bang
America called, they want they pension plan

Outside snow falling up to the hip
Put one shoe on
Then the button and zip your lips
Cause they saying things you don't wanna hear
And if you heard 'em well, you would be squirming
Landslide snow falling over the cliff
Put one shoe on
Then the button and zip your lips
In this American Landslide
In this landslide
