=====

You Am I - IOU2

=====

Five star loving

Drench me in the shower

And when I go deaf

Just turn it up louder

And knock me over

Just like you should

More than you demanded

More than you could

When the rider comes around

Just be on time

Everything's smooth and we fall down on wine

And we fight about things

Can't find words

Forget about everything we heard

You spin any number

Before Let It Be

And you get hell drunk

'Coz you don't need to see

And you ask me to stay so I will stay a day
Drown me any hour
Let's go down slowly
Just you hitting me
When the rider comes around
Just be on time
Everything's smooth and we fall down on wine
And we fight about things
Can't find words
Forget about everything we heard
You can ask me to stay and I will stay a day
Ask me to come and I will make a break
You can ask me to stay and I will stay a day
Ask me to come and I will make a break
