I'm looking for you again tonight  
I hope you come back to me one more time  
but you cannot feel the same way too  
I still don't know why you're gone and I'm here all alone  
So put yourself in my shoes and you will see

That I believed in you  
I wanna be with you  
I hope you come to me  
I wish you asleep  
Why don't you sleep, sleep with me tonight?  
One more time, tonight  
Sleep with me tonight, one more time, tonight

But you cannot feel the same way too

I still don't know why you're gone and I'm here all alone  
So put yourself in my shoes  
you will see

That I believed in you  
I wanna be with you  
I hope you come to me  
I wish you asleep  
Why don't you sleep one more time, tonight  
Sleep with me tonight, one more time, tonight  
Sleep with me tonight, one more time, tonight  
Sleep with me tonight, sleep with me tonight, one more  
time
