Suga I Just Wanna KiSs you
Baby I Just wanna KiSs You..

Skin is so soft, Turn the lights off
pinders your lips, waiting for this
moment for daze, touching your face
massaging you head, keep it right there
Take it slow, take it slow, cuz I don't wanna miss a thing
Guess in time, you will find, it don't get much better
then this

Oh I just wanna kiss you,
I just wanna hold you tight now
Pretty little thing, slow dance with me
I just wanna hold you tight now

Baby I just gotta kiss you
I just wanna hold you tight
You sexy little thing, come dance with me
I just gotta hold you right now

When you place your hands across my shoulder
Then you wrap my arms around your waist
Nothing's gonna change 'till the music stops
And till then I must say that the way you're looking at
me
(the way I'm looking at you)
say I'll take you home with me
(girl come home with me)
But I'm way too Sassey
Not playing you but thats how its gotta be (yeah yeah)

Suga I just wanna kiss you,
I just wanna hold you tight now
Pretty little thing, slow dance with me
I just wanna hold you tight now

Suga I just gotta kiss you
I just wanna hold you tight
You sexy little thing, come dance with me
I just gotta hold you right no-how

Keep it slow, oh yeah
Keep It slow baby, oh yeah yeah
Keep it slow, don't let it go
Oh yeah yeah oh..

Kiss you
I just wanna hold you right now
Pretty little thing, slow dance with me
I just wanna hold you tight now

Baby I just gotta kiss you
I just wanna hold you tight
You sexy little thing, come dance with me
I just gotta hold you right now

It's so Slow x4

Ghetto Romeo, Sasseyy don't you know
I can do anything
Little thing come and dance with me
I'll be ghetto (I just gotta Kiss you)
