"Guardian Angel"

Visit "[Guardian Angel](#)" on MotoLyrics.com

I was searching for so long
For my little mystic girl
Now that I've found you here
I will never let you go again

I know you suffer from a disease
And you say that you'll die soon
But even if you die I promise you
That I will stay with you

And I kiss your tears away
You can trust when I say
That I'm your guardian angel
I'm watching over you tonight

And I hold you in my arms
My love will always guide your way
I'm only living for our love
I'm watching over you forever

I sacrifice my life for you
I couldn't live without you again
And if you leave now I will go with you
Wherever you go I will follow you
Follow you to death
