"I Will Follow"

Visit "[I Will Follow](#)" on MotoLyrics.com

You're the angel you're my queen
I do everthing for you
I protect you from the cold
You can give me what I need

I'm addicted to your love
I'm addicted to this game
You give me pleasures give me pain
You're the onlyone I need

You're the master I'm your slave
We can reach eternity
Please don't ever let me go
You know I'm your property

And we're running through the night
You're the angel of my dreams
From the darkness into light
I'll follow you

We're searching for a place to hide
A silent place for me and you
We leave everything behind
No one can find us

I love the way you make me feel
When you kiss me in the night
You know my soul belongs to you
And please keep it when you die

I see tears in your eyes
But you kiss me with a smile
Your skin is cold you close your eyes
I can feel you fade away
