Visit "[Nightfall](#)" on MotoLyrics.com

How do you dream when I cross the line
How do you sleep when you hear me cry
How do you feel when you taste my tears
When I wave good-bye
Good-bye

Who can say when the rain will fall and my night turns
into the day
Who can tell me reasons, reasons here to stay

How do you dream when I cross the line
How do you sleep when you hear me cry
How do you feel when you taste my tears
When I wave good-bye
Good-bye

I am falling down, I wonder why
I am falling down and try to hide
I am falling down like a cried tear
I am falling down, 'cause you are not here
I am falling down, you have lost your way
I am falling down 'til the end of time
I am falling down in this endless night
