"Victory Of Death"

Visit "[Victory Of Death](#)" on MotoLyrics.com

I'm lying in a dark room
I hear the sound of strange machines
I try to move my fingers
I can't control myself

I feel the blood in my body
I feel my heart beating slowly
I try to open my eyes
But I'm too weak

I see the white light in the distance
I try to hide myself
I see my youth fading away
Is this the irrevocable end?

I try to fight against this feeling
My life slowly fades away
There is nothing I can do
This is the victory of death

I want to move my body
I hear the voices from behind
They reach me in my darkness
They say such stupid words

Somebody closed the door
They left me here alone
I feel the coldness inside
Somebody tears me apart
