Aaaaaai
Aaaaaai

Right now I'm waking up
It's all so new to me
I think I've got it all this time
The moment is right now
My spirit feel so free
This whole wide world is yours and mine

I'm riding with the top down
I can see so clear now
This is what it's all about
I can see the sunshine
Breaking through the clouds now
I just wanna let it out

And I feel the best is yet to come (feel the best is yet to come)
And I feel like it's all just begun
The game of life is up and down
Sometimes it turns you all around
When you know in your heart that you've found that one
That's when you know for certain
Still the best is yet to come

Right now I'm learning this
I'm growing everyday
Just take my hand and lead the way
This must be heavens plan
Cause now I understand
Where I belong and where I'll stay

Everything is so right
I can see the bright light
Shining in my sky so blue
I'm finally believing
Finally found the feeling
It's all coming straight from you

And I feel the best is yet to come (feel the best is yet to

come)
And I feel like it's all just begun
The game of life is up and down
Sometimes it turns you all around
When you know in your heart that you've found that one
That's when you know for certain
Still the best is yet to come

And I feel the best is yet to come (feel the best is yet to
come)
And I feel like it's all just begun (just begun)

And I feel the best is yet to come (that's it just begun,
that's it just begun, just begun)
And I feel like it's all just begun
I feel like it's all just begun
