"Pyramids"

Visit "[Pyramids](#)" on MotoLyrics.com

For a million masses
I will ruin all the water
I eliminate your senses also you
Should give me evermore
And I will seal all up the doors
And lock away that nature thing we'll never do
I'm the one you love the most
It keeps you safe and warm at night
I'm the one that always come unglued
And overflows

I love you and you love me
And we love everything we see
And nothing could be more than me or you
Here amidst the ruins
In the shadows of the pyramids
Pictures of the dirty things we do
I'm the one I love the most
It keeps you safe and warm at night
I'm the one that always come unglued
And overflows

Everywhere the arms around
The pictures of the crowd surround
The wave is disappearing out of view
The rivers fill the fields inside the homes of mountains,
fields and mines
And doors and minds are locked away on you

I'm the one you love the most
It keeps you safe and warm at night
I'm the one that always come unglued
And overflows
