They say it's ornamental
But it's pretty real to me
It's just experimental
But I think I disagree
It might be accidental
Slippery as the wind
And it was once a circle
Now it's getting thin

(chorus)

Used to be cheap love song
Satellite as it falls in alaska
Silver moon it's close at hand
Satellite as it falls in alaska
Message is message was
Shadows in the trees
Growing much faster
Silver moon it's close at hand
Satellite as it falls in alaska

It's artificial water
Splashin' all around
And though you might be sinking
You can never drown

(chorus)
