They put flowers on your grave jon benet
They put flowers on your grave jon benet
The police they ask them
The papers they ask them
The parents they ask them
But you can never ask them

They put flowers on your grave jon benet
They put flowers on your grave jon benet
The papers exhume you
From your little grave they pull you
All they want to do
Is to poke around your mummy
They put flowers on your grave jon benet
They put flowers on your grave jon benet
