"True Love"

She's coming. Can you feel her? She's warming and
Growing.
Listen to her and you'll feel her. Her hand caresses my
Life into a warm and blissful world.
I feel her cold steel in my arms. Fall into the same
Routine.
Over and over, there's no escape from this trap.
Tried and failed once-again. Wrap myself around her
steel

Hand.

This time I know. Tomorrow will fade away. This time I
Know.
Failure will end today. It's love inside of her.
Her steel is kissing, inviting, and welcoming. Please
Don't fail me today.
Push your steel through my flesh. Show us your power
to
Save.
Please don't fail me today.
