Verse 1.

Forever, seconds gone.
I know it's hard but keep moving on.
You'll die here, please don't bleed.
Another moment and you will see...

Chorus.

A chance to breathe.
A chance leave.
A world beyond what you believe.
A leap of faith that changed your life.
A world you hate just left behind.
A chance to breathe.

Verse 2.

Just don't lose, your child like.
Innocents and sweet goodbyes.
When it rains, wash away.
All the violence of yesterday.

The way you are is fine.
You're biggest threat is time.
Everything around is paralyzed.
Nothing matters tonight.
You know there not right?
One more moment and you will see...

Chorus.

A chance to breathe.
A chance leave.
A world beyond what you believe.
A leap of faith that changed your life.
A world you hate just left behind.
A chance to breathe.
A chance leave.
A world beyond what you believe.
A leap of faith that changed your life.
A world you hate just left behind.

Bridge.

Behind your eyes is your only disguise.
Romance so fine, you're genetic design.
In your eyes they burn for you.

Only then you can choose...

Chorus.

A chance to breathe.

A chance leave.

A world beyond what you believe.

A leap of faith that changed your life.

A world you hate just left behind.

Chorus.

A chance to breathe.

A chance leave.

A world beyond what you believe.

A leap of faith that changed your life.

A world you hate just left behind.

A chance to breathe.

A chance leave.

A world beyond what you believe.

A leap of faith that changed your life.

A world you hate just left behind.

A chance to breathe

A chance to breathe

A chance to breathe
