Verse.

You made me feel like a star.
But eventually every star burns out.
Nothing good can ever last forever.
Never forget just please remember.

You were my life...
I held on tight...
I don't recognise my reflection these days.
We changed so much in so many ways.

Pre Chorus.

And you're the day and I'm the night.
The two will never be, it's just not right...

Chorus.

This is my worst time.
The last time.
My only time to breathe.
My opinions don't matter.
They shatter.
Everything that's me, everything I need.

Verse.

Yesterday is gone, It's been so hard to move on.
Without you, besides you, there's nothing to live for.

Seperate the insides, upsides tear it down,
So I cannot breathe.
Let me be the victim, Instead of the infliction.

Pre Chorus.

And you're the day and I'm the night.
The two will never be, it's just not right...

Chorus.

This my worst time.
The last time.
My only time to breathe.
My opinions don't matter.
They shatter.
Everything that's me, everything I need.

Bridge

Take a step back and watch me fade away.
Never look back because today's the day.

Chorus.

This is my worst time.
The last time.
My only time to breathe.
My opinions don't matter.
They shatter.
Everything that's me, everything I need.

Chorus.

This is my worst time.
The last time.
My only time to breathe.
My opinions don't matter.
They shatter.
Everything that's me, everything I need.
That's me.
Everything I need.
