I have to get away  
Out of this place where I became  
The type who sits and laughs  
At everyone who judges me

It's so damn dark in here  
I can't see in front of me  
My flames have all burnt out  
My hope's no part of my reality

There's no escaping fear  
I can't breathe, I'm struggling  
My flames have all burnt out  
My hope's no part of my reality

There's something pulling me  
In the wrong direction

My confessions aren't at rest  
They can't get by  
Oh no, 'cause these are deadly weapons  
Deadly weapons

Why must this perception take my breath?  
I can't get by  
Oh no, 'cause these are deadly weapons  
Deadly weapons

With no direction to go  
Will my feet carry me?  
To where I need to go  
To find myself the perfect remedy

Can I bare all of the weight  
Of my mistakes? Give me strength  
Wherever will I go  
To find myself the perfect remedy

There's something pulling me  
In the wrong direction

My confessions aren't at rest

They can't get by  
Oh no, 'cause these are deadly weapons  
Deadly weapons

Why must this perception take my breath?  
I can't get by  
Oh no, 'cause these are deadly weapons  
I can't get by

Now I can never take it back  
Now I can never take it back

The truth might take us down  
Lose ourselves in the sound  
I won't want to hear your name  
I won't want to see your face again

Words crumble to the ground  
You'll blow the candles out  
I won't want to hear your name  
I won't bare to see your face again

There's something telling me  
I better take my chances

My confessions aren't at rest  
They can't get by  
Oh no, 'cause these are deadly weapons  
Deadly weapons

Why must this perception take my breath?  
I can't get by  
Oh no, 'cause these are deadly weapons  
Deadly weapons

My confessions aren't at rest  
They can't get by  
Oh no, 'cause these are deadly weapons  
I can't get by

I know there's something more  
I know there's something more  
I know there's something more  
I know there's something more

Now I can never take this back  
Now I can never take it back
