Violent breathing keeps the oxygen kissing torn up
lung
My heart's beating it won't keep me from saving
everyone
Messages to the ones I love
Violent breathing it won't keep me from saving
everyone

So we sing into the night and break all the silence
In one attempt to rise the broken from the dead
Avenge their souls and mend their souls
We sing into the night

Violent breathing keeps the oxygen kissing torn up
lung
My heart's beating it won't keep me from saving
everyone
Messages to the ones I love
Violent breathing it won't keep me from saving
everyone

So we sing into the night and break all the silence
In one attempt to rise the broken from the dead
Avenge their souls and mend their souls
We sing into the night

When terror grows like vines tightly gripping by the arm
Thorns digging draw the blood
Releasing pain
I'll sew your wounds over night
I'll sing to you
I'll risk my life for yours
I'll sip your tears
In exchange for my blood
Drink up
Fear is gone
as light from the moon awaits
Fear is gone
as light from the moon awaits
