I realize there's something
That I've been missing now
I hope I could find a way
Forget you somehow

Chorus I:
Why it seems so hard to find the way
Out of this, out of this, out of this
Coz changes only scream out loud
Now I'm here
I'm counting stars...

Chorus II:
I remember the day

Remember all the pain
I remember you... FORGETTING ME!!!

I realize there's nothing
This empty hand can take
Now these hands are bleeding
Now I'm getting red

Repeat Chorus I
Repeat Chorus II (2x)

Black hole they surround me everytime (2x)
