Verse I

I'm staring at the mirror
I'm wondering what to do
Now everything is frozen
I'm crawling in my room
My mind is so confused
I'm talking to myself
Now that I'm alone
Don't you leave me...

CHORUS

Take away my fears
Take it away from me
Coz I don't need to stay, watch it burn in me

Verse II

Now I feel so cold

I'm calling at your name
I feel all alone
I'm reaching out in pain
And I don't know if I could live
Wash away my tears
Now that I'm alone
Don't you leave me...

CHORUS

Take away my fears
Take it away from me
Coz I don't need to stay, watch it burn in me

Bridge

Don't let burn my skin
Don't let scar my face
