He's in love with America
He loves the things he sees out there
And if he really loves this place
Then is it for us to care

'Cause what you want you dream of
And what you want you hope for
And what you want you love

He wants to see another dream
And take a chance on another plan now
He wants to feel what it's like to breathe
And feel the breeze from a different air

'Cause what you want you dream of
And what you want you hope for
And what you want you love
And what you want you dream of
And what you want you hope for
And what you want you need

He's in love with another land
He wants to feel what it's like to be there
He wants to dance to another song
And feel the beat from a different rhythm

'Cause what you want you dream of
And what you want you hope for
And what you want you love
And what you want you dream of
And all the things you want
And all the things you need

It's a fairytale that I'll say to you
To make your dreams come true
It's a magic spell, just an old wife's tale
To make your souls feel real
It's the way we walk, it's the way we talk
It's the things that we do
It's a magic spell, just an old wife's tale
To make our souls feel real

It's America or it's India
Anywhere that you want it to be
