Again we've arrived with a mission to fulfill  
To kill the stage and rape your ears  
A merciless death, a strike of the beast  
The most awesome shit you've heard in years

The metal is raw, the volume is loud  
We shred and then we kill the crowd  
Because we're F.K.Ü. and it's futile to resist  
Our horror metal mosh with a twist

[Pre-Chorus:]  
Get in the pit, you have to commit  
If you're not moving, your head we'll split

Alone in the dark you'll die by the sword  
'Cause we are the unstoppable force  
We kill on command, we march into fire  
And hit the road with Ghoul and Engorged

[Pre-Chorus]

[Chorus:]  
The horror metal moshing machine  
Has arrived to crush you all  
The horror makes you shiver in fear  
And fall dead on the floor  
The horror metal moshing machine  
Will eliminate your life  
The horror and the metal combined  
Will slit your throat and kill you  
Till you motherfucking die

[Chorus]
