You can lock your doors, but you can't lock  
The madness out of your mind  
Your terror is unreal, cause the horror is insane  
It's time for you to experience...

[Chorus]

JOEY SPINELL! Straight out of hell  
He will hunt you down, tear the life out of you  
JOEY SPINELL! Straight out of hell

You know that he will attack, cause he's the maniac  
Carmen Zito, his mothers name  
The woman who drove him insane  
She locked him in the closet, there's nowhere to run  
And there's no time to pray cause...

[Chorus x2]

Madness and mayhem, when the maniac attacks  
Two slaughtered at Venazaro Bridge  
And there was this nurse, she didn't stand a chance  
No way!

[Lead Pete]

He'll take your scalp and nail it to a mannequin  
A beautiful wig for his bride  
Your terror is unreal, cause the horror is insane  
It's time for you to experience...

[Chorus x2]
