

The Absence

"A Breath Beneath"

I fell so low on the long way home
Sinking ever steadily waiting for this heart to stop in
between where
We die far from this long goodbye
Emptiness
Where we fall drifting apart
Facing the end with regret
I cannot [2x]
Shadows weaken starting to stir
A motion in deception begins to blur
I'm focusing on things I can't end
Broken ties and wounds that won't mend
To the city of ghostly statues
And a broad feeling of clamor
I'll step to the edge and push ten long until the words
hit just like a hammer
Emptiness
Where we fall drifting apart
Facing the end with regret
I cannot [2X]
And all that I have ever loved has now turned empty
and all that I have
Ever kept, is in this long goodbye
When You fall, I will fall with Heaven in between this
breath beneath
When You fall, I will fall with Heaven in between this
breath beneath
I bid farewell to this year long wrapped in wings To the
shameless, to
The faceless, You will forever remain... nameless
