The elders of the world will never understand the new  
humans

Their way is nonviolent, they're passive  
They need protection and that's where you come in  
For there will be a war, it's inevitable  
I need you all to be prepared for the worst

My soldiers

Bobaflex warriors throw up your blasters  
Bobaflex warriors throw up your blasters  
Now this human's on a march  
Bobaflex warriors throw up your blasters

Shave your heads and forget God and family  
Define the self through logic and worship knowledge  
Symbol of a brave face placed against a void  
Many begin to follow it and dinosaurs grow paranoid

Science fiction band and a strong song  
It was simple propaganda to connect with the new  
humans  
The powers that be would now see them as a threat  
So he called upon his followers and this is what he said

Would you die for this  
A better life than this  
Are you my soldier till the end?  
I scream to the world, "Bow your heads"

Bobaflex warriors throw up your blasters  
Bobaflex warriors throw up your blasters  
Now this human's on a march  
Bobaflex warriors throw up your blasters

A leader will rise from the east who speaks of a new  
breed  
A seed in the imagination of a generation  
New humans inherit the earth, they are the masters  
Protected by Bobaflex all throw your blasters

Would you die for this

A better life than this  
Are you my solider till the end  
[Incomprehensible]

Now if you see that Bobaflex band  
Fill them full of lead and make sure they're all dead  
Within the album hides a code  
To seduce the youth for new human goals  
The leader is inside myself and I control the rise and  
fall  
Open up your mind and scream defiance in the name

Bobaflex warriors throw up your blasters  
Now this human's on a march  
Bobaflex warriors throw up your blasters
