They say we're in a state of emergency  
So how come no one is panicking  
Where were you when they  
Wrote the news  
And how are you  
Are you feeling blue  
The paper doesn't cause  
Too much of a fuss  
Perhaps it's because it's not, it's not sad enough  
Where were you when they  
Wrote the news  
And how are you  
Are you feeling blue  
You've never seen the color blue  
Call me in the morning  
We'll go for toast and tea  
Where were you when they  
Wrote the news  
And how are you  
Are you feeling blue  
You've never seen the color blue  
You've never seen the color blue  
We'll you've never  
No you've never seen the color  
Never seen the color blue  
Never seen the color blue  
Never seen the color blue  
You've never seen the color blue  
Oh no you've never seen the color blue oh...  
You've never seen the color blue
