**ENGLISH TRANSLATIONS**

The day you return

Pleas take me away

Even my recent weakness

Was wasted on touching someone's heart

The edge of your ear is soft  
Apparently laughing at me  
Dreaming of your hard-to-understand beauty  
I hold back my heartfelt words

\*Take me away  
These complicated love  
What seems like infatuations  
Are all nonsense and betrayal  
Can't leave  
Time is repeatedly destroyed  
Making me brave  
Making me remember your love

Memories polished me  
The wound from remembering  
Music, please reverse for me  
Don't shed tears for me

[ Repeat \*, \* ]

Let me love you  
No leaving any regrets
