"I Loved You All The Way"

Visit "[I Loved You All The Way](#)" on MotoLyrics.com

All this time we've been together
Everyday a new adventure
Time's enough to last forever and a day
Our love was sometimes all we had
Through good times and through bad
I loved you all the way. . .
All our days weren't bright and sunny
There were times we had no money
You could always find some funny things to say
I'm lookin' back on where we've been
I'd do it all again
I loved you all the way. . .
Refrain:
I loved you all the way, hey
Everynight, everynight, everyday. . .
Times I thought I could'nt take it
Wondrin' if we'd ever make it
You could hold me close and make it go away
And though I've said it all before
I never meant it more
I love you all the way. . .
Coda:
I loved you all the way. . .
