"G-Get Up And Dance"

No, no body stop. Everybody move
Get up and dance get up and dance
Move your body b-b-body
No, nobody stop. Everybody move
Get up and dance get up and dance
Move your body b-b-body.

It's going down tonight.
The ladies looking right
Dressed up with fancy shoes
Tight jeans and sweet perfume
The lines around the block
But we just walk right up
Were here to make a scene
Cause were living the dream
Tonight, tonight, were gonna do it right so!

No, no body stop. Everybody move
Get up and dance get up and dance
Move your body b-b-body
No, nobody stop Everybody move
Get up and dance get up and dance
Move your body b-b-body.

C'mon and move your body

We're lining up the shots
For every friend we got
Lets spend a couple more
Before we hit the floor
And when they start the beat
We'll take it to the street
Oh here's my limousine
Who's coming home with me
Tonight, tonight, were gonna do it right so!

No, no body stop. Everybody move
Get up and dance get up and dance
Move your body b-b-body
No, nobody stop Everybody move

Get up and dance get up and dance
Move your body b-b-body.

Yeah yeah
Caught in the moment
You cant control it
Yeah yeah
This is your chance now
Get up and dance now
Everybody dance now
Move your body now

It's going down tonight
A thousand flashing lights
Were here to make a scene
Cause were living the dream

YEAH!!!

No, no body stop. Everybody move
Get up and dance get up and dance
Move your body b-b-body
No, nobody stop Everybody move
Get up and dance get up and dance
Move your body b-b-body.

Caught in the moment
Move your body b-b-body
You cant control it
No stoppin
This is your chance now
Dance now dance now
Get up and dance now dance now
