When I met you
You told me
To forget you
Your way out of my league

But it happened
Couldn't I see
A disaster was ready to be unleashed

Tryin' to climb the ladder
But I'm handcuffed to the bottom,
Need to use the keys
But you're the only one who's got'em.

I know the end is comin'
I should've started runnin
24 story love affair
With me down here and you up there
I know it's all but over
I wish that last kiss would've lasted longer
24 story love affair
With me down here and you up there
With me down here and you up there

Towering
Above me
Started climbing
And never though it through

You warned me
Should've listened
Now I'm sorry
I ever met you too

Tryin' to climb the ladder
But I'm handcuffed to the bottom,
Need to use the keys
But you're the only one who's got'em.

I know the end is comin'
I should've started runnin'

24 story love affair
With me down here and you up there
I know it's all but over
I wish that last kiss would've lasted longer
24 story love affair
With me down here and you up there

My fingers are numb from holding on
I'm climbing a building like King Kong
Feel like I've been shot down all day long
But I'm holding on.

I know the end is coming
So scared of heights it numbing
24 story love affair
With me down here and you up there
With me down here and you up there

I know the end is comin'
I should've started runnin'
24 story love affair
With me down here and you up there
I know it's all but over
I wish that last kiss would've lasted longer
24 story love affair
With me down here and you up there

24 story love affair
With me down here and you up there
24 story love affair
With me down here and you up there
24 story love affair
With me down here and you up there
