### "Merry Merry Christmas"

People I just wanna think that everyone feels good this  
day  
And everybody loves each other no one's ever lonely  
But behind the fairy tale there's a whole lot of stories  
no one tells  
It's easy now to walk away than to try and make a  
change  
Won't you listen now  
Ding dong ding dong, the bells are ringing loud  
With the message sure reminds us what's this day  
about  
We all need a merry, merry Christmas, together we can  
find  
A way to have a merry, merry Christmas, off the world  
unite  
If we open our eyes we'll realize, that we're all the  
same  
And we all need a merry, merry Christmas, merry  
merry Christmas.
