See you got out  
Yeah I got out I was I was happy to be out but then I was  
scared  
Scared of what  
I was afraid to cross a street and I was afraid to go  
places  
Eat in restaurants I kept thinkin' that everybody was  
lookin' at me  
Everybody kept starrin' at me  
And I found that that most of the people that I seen on  
the corner you know  
That had been in prison with me and that had been out  
for awhile  
They all had you know new cars and new clothes and  
things like that  
And I didn't have those things and I felt the only way I  
could get em was to steal  
So you know I started stealin' to try to keep up with my  
friends you know  
And ended up back in prison
