"Jesus Is The Only One That Loves Us"

See the Sunday morning wino slowly shufflin' down the street

The only God he knows clutched in his hand

And heaven's just a drink from his bottle and Jesus

Christ to him is just another man

Yes Jesus is the only one that loves us he'll forgive us when we sin

Jesus is the only one that loves us even when we think we haven't got a friend

In cheap hotel room somewhere in Chicago a cheatin' husband takes his neighbor's wife

Lord that's not the way he did it in Korea

Still it's just another way of takin' someone's life

Around the corner in a cement city alley hidin' from the cold Chicago rain

While the Salvation Army band was playin'

A junky rolls his sleeves up and lets his Saviour in

Yes Jesus is the only one...

Yes Jesus is the only one...
