(Rory Bourke - Charlie Black)

Love is a cold wind when it blows away from you
And you watch it go it hurts to know there's nothing you
can do
You're all alone again and love is a cold wind.

Love is a rain storm but it only rains on you
And there's no one there who seems to care no one can
close through
And inside you're never warm 'cause love is a rain
storm.

But when she was here love was a breezy morning
Filled with the sun as warm as a smile but now it's
done.

Love is a cold wind as it blows away from you
For you find your way to yesterday what else is there to
do
'Cause you're all alone again and love is a cold wind.

--- Instrumental ---

You're all alone again and love is a cold wind.

--- Instrumental ---

Love is a cold wind love is a cold wind.

--- Instrumental to fade ---
