Gather round fellows I'll tell you some tales about
murder and blueberry pies
And heroes and hells and bottomless wells and lullabys
legends and lies
And gather round ladies come sit at my feet I'll sing
about warm sunny skies
There's mermaids and beans and lovin' machines in
my lullabys legends and lies
Lullabys legends and lies and lies lullabys legends and
lies
I'll sing you a song then I'll shuffle along with my
lullabys legends and lies

I may make you wonder I may make you smile I may
bring the tears to your eyes
But when I disappear Lord you'll wish I was here with
more lullabys legends and lies
So open the bottle and pass a guitar and look in my
warm lovin' eyes
I'll take you to places you ain't been before with my
lullabys legends and lies
Lullabys legends and lies...
