(Dennis Linde - Randy Cullers)

I'm not a believer but I believed in you
I'm not a doer but honey I did for you
What did it get me, what did it get me?

I'm not a cryer but I cried for you
I'm not a lover but I slept with you
What did it get me, what did it get me?

Well, it got me Lord for a little while
A heart full of memories and smiles
And a closet full of pictures I've been going through
And it got me thinking I had might have been
Wishing I could do it over once again
But once again I lie awake and think of you.

You're not a believer but you believed in me
You're not a dreamer but you dreamed with me
What did it get me, what did it get me?

Well it got me thinking I had might have been
Wishing I could do it over once again
But once again I lie awake and think of you
What did it get me, what did it get me?

What did it get me for you?...
