Uh, uh, uh

Baby girl, you know my situation  
And sometimes I know you get impatient  
But you don't put on a show to get ovations  
Take it to court and go through litigations

And I respect you gangsta  
Treat you like a princess  
And put something on your neck to thank you  
She's my pinch hitter

When the startin' lineup, ain't playin' right  
I come off the bench with her  
It might sound like I'm gassin' you  
But it take time to get from the back seat to the  
passenger

We been creepin' and sneakin'  
Just to keep it from leakin'  
We so deep in our freakin'  
That we don't sleep on the weekend

Wifey's a little bit uptight  
Wonderin' why I keep coming home in the middle of  
the night  
It'll be alright if y'all bump heads it'll be a fight  
But I said it'll be alright

I really wanna be with you  
But I gotta be real with you  
I can't leave you alone  
And I know I'll live in wrong but I can't let you go

You're the one I want in my life  
I already got a wife  
I can't leave you alone  
And I know I'll live in wrong but I can't let you go

You ain't never step out of line or get out a pocket  
So I made sure canary sent out your locket

To protect you I'll get out and cock it  
And you know the barrel of my gun is big enough to  
spit out a rocket

Oh, you gone play dumb if cops do come through  
I gotta keep the top up if my drop do come through  
But I know the boutiques and the shops you run  
through  
So I cop her one and cop you one too

You always get a daily page weekly ring  
Plus you ain't too shy to do them freaky things  
I ain't gotta put a band on your finger  
Or worry about you tellin' the whole world I'm your man  
while I spring her

At first you was somethin' I denied  
Something I would slide just to do somethin' in the ride  
But shorty, there's something you provide  
'Cause the entre ain't as good without somethin' on the  
side, you know?

I really wanna be with you  
But I gotta be real with you  
I can't leave you alone  
And I know I'll live in wrong but I can't let you go

You're the one I want in my life  
I already got a wife  
I can't leave you alone  
And I know I'll live in wrong but I can't let you go

Uh, uh oh, I might be leavin' the earth soon  
My girl gone kill me if she smells the scent of your  
perfume  
It's gonna be a clip tossed if I go back  
With stains of your lip gloss on my throwback

She won't care if I'm a platinum rapper  
If she catch me with an empty Magnum wrapper  
So keep it on the down low call the car celly  
You seen what happened with Mr. Big and R Kelly, uh

You know I care for you  
Anytime this chick is there for you  
These feelings I'm a share with you  
Which makes it a little more clear for you

I really wanna be with you  
But I gotta be real with you  
I can't leave you alone

And I know I'll live in wrong but I can't let you go

You're the one I want in my life

I already got a wife

I can't leave you alone

And I know I'll live in wrong but I can't let you go

I really wanna be with you

But I gotta be real with you

I can't leave you alone

And I know I'll live in wrong but I can't let you go

You're the one I want in my life

I already got a wife

I can't leave you alone

And I know I'll live in wrong but I can't let you go
