Yes!

The slump is over, we winning again
Bring some money out homey, we spending again
Wipe the frown off shorty, we grinning again
Did he say 'again'? Yes! We winning again

The slump is over, we winning again
Bring some money out homey, we spending again
Wipe the frown off shorty, we grinning again
Did he say 'again'? Yes! We winning again

I'm riding through the metropolitan, everybody
hollering
Me I'm just acknowledging with this million dollar grin
Shine like a halogen, cool as the island wind
I don't judge myself but if I do I'd give my style a ten

Met a chick who belong on front of Cosmopolitan
Thick in the right place, otherwise she model thin
She don't do no swallowing but she got a wilder friend
Who don't give a ****, I told both of them to follow then

I'm with the familiar, you might be familiar
With a few faces but they still the nine milli-a
They be like the Young Guns, so I guess I'm Billy bruh
I do more than William Bonney, I'm a little Willie-r

Change a little chillier, wrist a little sillier
And I'm grown so I'm not really the kid at all
But I hope you get it y'all, I can't say I did it all
But believe that 'fore I leave it I'ma try to get it all

What I don't get at all is what these critics call
Stunting, don't mean nuttin, they don't live it like they
read it y'all
It ain't the car, it's the way it's kitted y'all
Meaning it's the little things, like the way my fitted fall

The way my posture lean, the way my necklace hang
You should respect this gang, if not expect this bang
But all this reckless slang, it don't effect us mayne

They build you up to break you down, it's just like Tetris
mayne

That's why I sex Miss Thang and let the next miss hang
And even if I wake up late I do the breakfast thang
That's an important meal, I used to import and deal
Jay brought me to Def Jam, feel like it's Jordan deal

I'm young mellow game-winning young fellow
Remember me, I mixed one white with one yellow
Turned nuttin into something, you could do it too
This the music that you do it to, LoSo
