Yes, I wanted them to know, say real warriors don't play  
And if you romp with us, you have to run away  
I want them to know, say real gangstas don't play  
And if they romp with us, they have to run away

Know they romp with us and they go run and hide  
Slip them, go slip and now a slide them, go slide  
Only a fool get caught up in his own pride  
Hope they'll be ready for your ride

I want them to know, say real gangstas don't play  
If they romp with us, they have to run away

Know they romp with us and they go run and hide  
Slip them, go slip and now a slide them, go slide  
Only a fool get caught up in his own pride  
Hope they'll be ready for your ride

Gangstas ain't this fly? This is just a rare occasion  
You can hear it's blazin', soon as the layer is raisin'  
Hell yeah, we hazin', sexy pair of [Incomprehensible]  
Chinky eyes, dark hair, you would swear they Asian

They Bahama mamas, holdin' llama mamas  
Put the gangsta grills on when it's drama mamas  
Murder them, murder them  
They don't make a move 'til they get word from him

I could be in Fiji, one call to a gigi  
She on some belly shit like X with a squiggy  
They say it's gangsta, but it's just the way of life  
If life's a bitch, better make everyday your wife

I'm from the era of the shootouts for drug spots  
Happy to be here, so I smile in my mug shots  
The David Dinkins years, I even dug Koch  
Before the George Bush drugs watch, bloodclaat

I want them to know, say real gangstas don't play  
And if they romp with us, they have to run away

Know, they romp with us and they go run and hide

Slip them, go slip and now a slide them, go slide  
Only a fool get caught up in his own pride  
Hope they'll be ready for your ride

I want them to know, say real gangstas don't play  
If they romp with us, they have to run away

Know they romp with us and they go run and hide  
Slip them, go slip and now a slide them, go slide  
Only a fool get caught up in his own pride  
Hope they'll be ready for your ride

We say death before dishonor  
The scent that you smellin' on my breath is marijuana  
'Fore I left to Tijuana  
I told them it was war, so they nephew or they mama  
Betta wear a tef for they're gonna

That's what it sounds like when thugs cry  
I see things, see wings when the slugs fly  
Low life Loso, P Wing Rugby  
Low Teddi, young niggas that no ready

I go back like recline, no need for rewind  
Still run through flat bush like the D line  
Usually just the team  
'Cuz them extra niggas be unnecessary  
Just like a Uzi wit a beam and a 'cuzzi full of steam

Suzie and Janine  
Niggas do shit like this but it's usually in there dreams  
Gangsta don't sleep unless it's guns by the bed  
Ever wonder why the bread gets snatched by the Feds?

I want them to know, say real gangstas don't play  
And if they romp with us, they have to run away

Know they romp with us and they go run and hide  
Slip them, go slip and now a slide them, go slide  
Only a fool get caught up in his own pride  
Hope they'll be ready for your ride

I want them to know, say real gangstas don't play  
If they romp with us, they have to run away

Know they romp with us and they go run and hide  
Slip them, go slip and now a slide them, go slide  
Only a fool get caught up in his own pride  
Hope they'll be ready for your ride
