Meek Milly wattup boy?  
Loso the boss  
Maybach, the family

Stand up nigga looking down on a slouch  
I got a thing for putting footprints in the couch  
Nigga mad cause his chick in my section  
Take it the wrong way, he dead, die-rection  
Come through in the AM, y'all thought the morning  
I mean thta Aston Martin, see my thoughts are foreign  
I fuck with real niggas who like to pop some tags  
I dig a chick who 'bout her money, got some ass  
So I love Nicki Minaj, I told her I'd admit it  
She said "no you fucking don't Fab, you just wanna hit  
it"  
Okay girl you got me, but I'm with it, if you with it  
I just wanna hear make them funny voices while we did  
it  
I'm a BOSS (boss)  
That mean your man run shit  
She got a man, but I'm who her man come get  
New management, Hermes done with  
She let me score, that's foul, And 1 bitch
