She said I wanna hold you down, but we ain't never
gonna be right
'cause you too caught up in the street life
But that's the only life I know
She said them niggas that's around you, they ain't
never gonna be right
'cause everybody wanna be right
Instead of focusing on their own, dough
But this the only life I know
But this the only life I know

They say a woman cancel dates 'cause she has to
And a man cancel dates 'cause he has two
Well, I got two dates, one with destiny
I need more, baby, don't think any less of me
Tryna juggle, slowly but came with struggle
Sometimes I wanna hug the block, sometimes I wanna
hug you
Sometimes its about the check, sometimes its about
checking that
De niro said you gotta leave in 30 seconds, flat
When the heat's coming even if you need someone
Leave it in the rear view, don't look back, keep
running
Left her in the passenger with the G running
Hazard lights blinking and the beat bumping
Ear to the streets, I hear the sweeps coming
Air to your chest so I hear a beat from it
She fell in love with a street nigga
Tattoo my name on her petite figure

She said I wanna hold you down, but we ain't never
gonna be right
'cause you too caught up in the street life
But that's the only life I know
She said them niggas that's around you, they ain't
never gonna be right
'cause everybody wanna be right
Instead of focusing on their own, dough
But this the only life I know
But this the only life I know

There's always money to be made, that you
can't deny
I always made mine, never one who can't decide
I'm only human so if I don't eat I can't
survive
And mama said you're not a man if you can't
provide
The summers know a shortcut, it beats me home
I worked so hard to get here, now it keeps me going
By the time I get in what she made the eat be old
When I slide in bed she complain my feet be cold
Caught up in the street life just like my bitch said
I love the game, I love the hustle, just like Mitch said
Yeah, I can leave the game, but is they still gonna love
me?
And when a new nigga come they gonna stop thinking
of me
Shawty watch the hustle movie she can never get
How they make so much money, but they never quit
I tell her quit for what? That's the only life they
know
The street's a dirty ho, niggas try to wife it, though

She said I wanna hold you down, but we ain't never
gonna be right
'cause you too caught up in the street life
But that's the only life I know
She said them niggas that's around you, they ain't
never gonna be right
'cause everybody wanna be right
Instead of focusing on their own, dough
But this the only life I know
But this the only life I know
