Ugh...

I saw you last night with your handsome new dude
Kissing and smiling last night
I would rather have poisoned beaked sparrows
Pluck out my cryin' eyes

One of us has got to go, babe
One of us has got to go...

How it pains me to tell you so, babe
One of us has got to go...
One of us has got to go...

I climbed to the top of the Golden Gate bridge...
But, I forgot I'm afraid of heights
I put bullets in the pistol put that pistol in my mouth...
But, the barrel just didn't taste right

One of us has got to go, babe
One of us has got to go...

How it pains me to tell you so, babe
One of us has got to go...
One of us has got to go...

No suicide for the courage of a coward...
And one of us has got to go
Sitting here outside your window thinking...
One of us has got to go
You don't see me but I can see you...
And one of us has got to go
With the hammer pulled back my finger shakes on the
trigger...
And one of us has got to go
You smile so true while he's rubbing on you...
And one of us has got to go
One is not enough and three is to many...
And one of us has got to...
Boom!
