Tryna show you somethin' shawty
Hey, baby girl, they say the world is a beautiful place,
that's right
I'm tryna help you open your eyes and see that
Different ***, cool ***, real playa like

Hey, shawty, we could do it real playa like
We could go a few places that you say you like
See what it is like, when you be my a-alike?
Girl just lay back, I'll do it that way you like

Said it's the flyest thing just the way we swing
Me and you, how we do? We so fly

You need to leave them burgers alone and make a
steak upgrade
I'm Fillet Mignon with a tape-up fade
I see things clear through these Marc Jacobs shades
Like the clarity in these jewels that Jacob made

You sleep better knowin' you gon' wake up paid
Hair styled, nails filed, make-up made
We can shock South Beach, shake up Dade
In a droptop Phantom with the Drakov blades

I'm ma stop by the barber
You can hit the shops in the harbor
Then get the chops or the lobster
Prime on 12, dinner for dos
We begin with a toast, end with a dose

Of the light green ***, rolled in a Cohiba
It's Sunday, so you know how the Forge is
Weather gorgeous, not a cloud in the sky
We could show the world how to be fly, yes

Hey, shawty, we could do it real playa like
We could go a few places that you say you like
See what it is like, when you be my a-alike?
Girl just lay back, I'll do it that way you like

Said it's the flyest thing just the way we swing

Me and you, how we do? We so fly

If you wanna act Hollywood fine
But shawty, let's do it when we sittin' on the
hills
Like the Hollywood sign
And every man lies, but not every man flies
Privately to Van Nuys

Range on the runway, driver to pop doors
Straight to Barney's, somethin' we
need to stop for
She like, "It's early, what we gonna shop for?"
How 'bout green grass breakfast, top floor?

Later on Fred C or Max Fields
Real playa like dress, good black heels
No 'Hanas, we can do Katana's
You, me and ooh-wee, ***

Then slide through Hyde, might include Mood
Maybe go to Area if it's in the area
The Friday's young try things my way,
holla
Malibu ride, Highway 1

Nothin' is too much, everythin' you
touch
Turns to gold, you make me better
I'm fly as I can be, but you with me
I can't help but notice, I'm more focus
'Cause you're the coldest, girl
you're so

Hey shorty, bring the Mayback, we got a long way to go
Just lay back, you had a long day, I know
And they whack, do it the wrong way, I know
I play back but have the song playin' low

While we 6 deuce and let you fix Goose
In a glass with sum ice, maybe mix juice in
On the way to L.A, well, I could've took the heli
But we door more behind wheel

Hampton home, 2 floors for 9 mill
Real playa like, 2 doors from Seinfeld
White marble, new floors that shine still
And the help keep food store, wine chilled

Hey, we gotta live one day right
Well, how 'bout from Friday to Sunday night

Then back ã€ˆ~fore they notice, back up in Lotus
Let the world know we back and we focused

Hey, shawty, we could do it real playa like, yeah
He could go a few places that you say you like, yeah
See what it is like, when you be my a-alike?
Girl just lay back, Iã€ˆ™ ll do it that way you like

Said itã€ˆ™ s the flyest thing just the way we swing
Me and you, how we do? We so fly
