Every woman's your sister
Oh, oh, every man is your brother
Don't you know it ain't natural
To love one child more than the other

And we're all going home
Yes, we're all going home
You know that we're all going home
Righty right, some day

We can make it a life of love
Oh, yeah, it's just
A matter of attitude
Just remember when Jesus comes
It ain't me, oh, no
You got to answer to

But we're all going home
Yes, we're all going home
You know that we're all going home
Righty right, some day

We are all going home again
(We) people (are) people, yeah
(All going home again)
Going home, yeah, yeah

We're all going home
We're all going home
You know that we're all going home

(We're all going home)
All right and we're all
(We're all going home)
All going home
We're all going home some day

We are all going home
We are all going home
We are all going home...
