If only angels in the sky can tell me,
All the secrets that we shared through time,
Floating in the air I see your shadow,
Whispering that joy of will be mine.

RIT: A very special way to say I love you,
You seems you want to show how much you care,
I know you will be there with me forever,
To celebrate the love we both can share.

If only we can get close to a rainbow,
With all these colors it will light the way,
Knowing that you will be there beside me,
Protecting me if I should go a stray.

RIT: A very special way to say I love you,
You seems you want to show how much you care,
I know you will be there with me forever,
To celebrate the love we both can share.

Can wake me baby if I should go away,
Together we will start a brand new day.
If only they replay to all I questions,
The world will be a better place for us,
But knowing there are people all around me,
With you a feel that tender loving thrust.

RIT: A very special way to say I love you,
You seems you want to show how much you care,
I know you will be there with me forever,
To celebrate the love we both can share... X2
