"Sunrise"

Visit "[Sunrise](#)" on MotoLyrics.com

The sun is sleeping , take me somewhere new
Show me again the star you gave me
so you can see
how sweet you were with me

But one day I told you that I was in love
It was too much for you, too much 'cos
you were confused
Oh that you were sure of

Chorus :
I really wanna tell you that I'm not in love
The stars are in the sky and the moon's high above
And i know
Dont wanna see the sunrise alone
I wanna see the sunrise with you

don't you realize
Why can't you see you've just gone blind
Tell me why
when you think about me you smile

You're everything I ever dreamed of
you're so different , you're great , but wait
Don't go
Just pretend you haven't heard at all

And now I can read each thought that's in your head
It didn't work my way , let's try it your way
I know we are friends
but I feel that is not enough

I really wanna tell you that I'm not in love

The stars are in the sky and the moon's high above
And i know
Dont wanna see the sunrise alone
I really wanna tell you that I'm not in love
The stars are in the sky and the moon's high above
And i want you to see
that our love is not gone easily

And now I can read each thought that's in your head
It didn't work my way , let's try it your way
I know we are friends
but I feel that is not enough

I really wanna tell you that I'm not in love
The stars are in the sky and the moon's high above
And i know
Dont wanna see the sunrise alone
I really wanna tell you that I'm not in love
The stars are in the sky and the moon's high above
And i know
Dont wanna see the sunrise alone

I really wanna tell you that I'm not in love
The stars are in the sky and the moon's high above
And i want
you to see
that our love
is not gone easily
