Can't sleep at night, I toss and turn  
Listenin' for the telephone  
But when I get your call, I'm all choked up  
Can't believe you called my home  
And as a matter of fact, it blows my mind  
You would even talk to me  
Because a girl like you is like a dream come true  
A real life fantasy

Don't matter what your friends try to tell you  
We will even fall in love  
And we will be together in any kind of weather  
Just like that, just like that  
Every little step I take you will be there  
Every little step I make we'll be together  
Every little step I take you will be there  
Every little step I make we'll be together

Can't think too straight, I'm all confused  
You must've put a thing on me  
Because there are no words that can explain  
I'm livin' in ecstasy  
And you can rest easy I've got your back  
You'll never have to feel no pain  
Cause I dedicate my life to you  
You'll never look for love again

Don't matter what your friends try to tell you  
We will even fall in love  
And we will be together in any kind of weather  
Just like that, just like that  
Every little step I take you will be there  
Every little step I make we'll be together  
Every little step I take you will be there  
Every little step I make we'll be together

Every little .....oww!  
Every little step I (Every little step)  
Every little  
Every little step I take  
Every little .....

Every little step I (Every little step)  
Every little  
We'll be together girl  
Good lovin'  
Good lovin'

Don't matter what your friends try to tell you  
We will even fall in love  
And we will be together in any kind of weather  
Just like that, just like that

Every little step I take you will be there  
Every little step I make we'll be together  
Every little step I take you will be there  
Every little step I make we'll be together  
Every little step I take you will be there  
Every little step I make we'll be together  
Every little step I take you will be there  
Every little step I make we'll be together

Every little  
Every little step I (Every little step)  
Every little  
Every little step I take  
Every little .....  
Every little step I (Every little step)  
Every little  
We'll be together girl
